

ABUS 78KC Series Dial & Key Over-Ride Combination Open Shackle Padlock

Description

The ABUS 78KC series dial combination open shackle padlocks have a tough steel body & double bolted, hardened steel shackle. Tests show that the cataphoretic coating & rustfree components give 40 years of corrosion protection making the lock suitable for both indoor and outdoor use. With the key over-ride option, the lock can, furthermore, be opened even when the code cannot be remembered simply by using a master key (sold separately).

Supplied With No Keys

Combination
Mechanism

Weather Resistant
