

ASEC TSA Combination Luggage Cable Travel Padlock

Description

When travelling to the USA customs have to have access to your baggage in order to search it. If you chose to lock it then you will need a TSA approved lock, this allows access to customs whilst securing the contents of your luggage.

Combination Mechanism

Features

- Cable instead of rigid shackle is perfect for feeding through handles and zips
- Resettable Combination
- Essential security for visitors to the USA, allows customs to search baggage without destroying the lock
- Conforms to Transportation Security Administration (TSA) requirements
