

ASEC TSA Combination Luggage Belt Lock

Description

When travelling to the USA customs have to have access to your baggage in order to search it. If you chose to lock it then you will need a TSA approved lock, this allows access to customs whilst securing the contents of your luggage.

Combination Mechanism

Features

- Prevents case from accidentally bursting open whilst being moved
- Either loop around or cross belt to secure both edges
- Wide strap ideal for securing the outside of a suit case
- Resettable Combination
- Essential security for visitors to the USA, allows customs to search baggage without destroying the lock
- Conforms to Transportation Security Administration (TSA) requirements
