

Description

When travelling to the USA customs have to have access to your baggage in order to search it. If you chose to lock it then you will need a TSA approved lock, this allows access to customs whilst securing the contents of your luggage.

Combination Mechanism

Features

- Prevents case from accidentally bursting open whilst being moved
- Either loop around or cross belt to secure both edges
- Wide strap ideal for securing the outside of a suit case
- Resettable Combination
- Essential security for visitors to the USA, allows customs to search baggage without destroying the lock
- Conforms to Transportation Security Administration (TSA) requirements
