

ASEC Privacy Knobset

Description

This Privacy Knobset by Asec is supplied complete with fixing screws and an adjustable tubular latch, combining privacy with safety which makes this kit ideal for use in bedrooms and bathrooms. The inside knob has a turn fitted to it which locks out the knob on both sides, if emergency access is required you can use the slotted key provided or another flat item such as a coin to gain entry.

Reversible Handling

Features

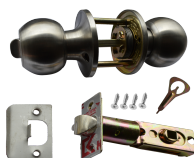

- Operated by turn from the inside with emergency override slot on the outside
- Tubular latch is adjustable (60mm or 70mm backset)
- Sold as a set complete with all fixings and fitting instructions
