

ASEC Sliding Wardrobe Single Gear

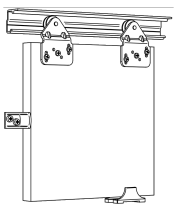

Description

The Asec Sliding Wardrobe Single Gear system is designed to be used with a built in top hung sliding panel on a single track (e.g. wardrobes and cupboards) of up to 50kg. The nylon wheeled bearing hangers, precision sealing and aluminium track help to give a silent operation and longer lifespan and they are easily height adjustable.

Features

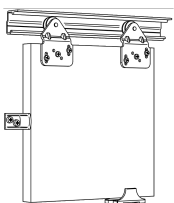

- Various opening widths
- Precision sealed bearings for durability and noise reduction
- Suitable for a thin to medium density fibre MDF board
- Adjustable face fix hanger
- Heavy duty slide
