

ASEC Closed Shackle Padlock with Removable Cylinder

Description

This Asec Closed Shackle Padlock is made from 26.5mm thick chrome plated brass with a stainless steel 10mm closed shackle, making this padlock highly resistant against bolt cutter attacks. It is supplied complete with a removable 40mm (30/10) half euro cylinder, 3 keys and a retaining screw. As the cylinder is replaceable it is ideally suited for inclusion in masterkey systems.

Supplied With 3 Keys

Operated By Euro
Cylinder
