

ABUS TVAC19000 WLAN Indoor 720p Pan & Tilt Dome Camera & App

Description

The Abus TVAC19000 is a WLAN pan/tilt dome camera & app with HD 720p resolution and an infrared night vision function. With its 350° panning & 90° tilting range, this product provides an effective all-round monitoring solution for indoor spaces. When motion is detected, the snapshot function is triggered which immediately sends an e-mail together with a push notification via app. A step-by-step manual to guide you through the installation of the app on both iOS & Android is provided.

Works With An App

Electronically Monitored
