

Description

Van door lock by Bulldog, designed to suit the near side sliding doors of vehicles, creates an extra level of security beyond factory fitted vehicle locks. The highly visible yellow powder coated finish acts as a deterrent to would-be thieves, and the drill and pick resistant lock with hardened steel case makes this product reassuringly robust. It is both easy to fit and easy to use as it is supplied complete with all required fixings, has no loose parts and it can be locked without the use of a key, only requiring the key when the lock need to be opened.

5 Year Guarantee
