

CHAMELEON Adaptable Multipoint Lock 2 Hook & 2 Roller + Keeps

Description

The Chameleon repair lock has a 16mm faceplate and is supplied in 3 parts so is easy to transport. It is very easy to assemble and the locking point extensions can be cropped therefore making them suitable for use on differing heights of door. It is supplied complete with keeps and the split spindle versions can be used as single spindle locks if used with a solid spindle.

92mm Centres

Operated By Euro Cylinder
