

Description

The Dorgard enables you to legally and safely hold fire doors open, by allowing the door to close when the fire alarm sounds preventing the spread of fire and smoke. This model features New SmartSound technology, meaning the Dorgard is continuously listening for a fire alarm sound, but is not triggered by vacuum cleaners and other common background noises. The Dorgard is easy to install on the bottom of a door in under 5 minutes using just 4 screws. As the unit is battery powered with a 3 year battery life, there is no wiring required. The unit also features automatic night-time release and adjustable sensitivity. This unit improves access throughout buildings in line with the Equality Act (2010). It is suitable for fitting onto any door and it is carpet friendly, leaving no marks.

2 Year Guarantee

60 Minute Fire Rating

CE Marked Product

Fire Tested

Features

- Pre-set to activate after 14 seconds of 65db alarm sound – adjustable decibel range
- Can be fitted to any door
- Carpet friendly -doesn't leave marks
- 2 Year Guarantee
- Easy to install with no programming required
- New SmartSound technology — not triggered by vacuum cleaners or other common background noises
