

MASTER LOCK 5426EURD High Security Extra Large Key Safe

Description

The 5426 EURD from Master Lock is a high security key safe with an extra large internal storage capacity which will accept multiple keys and access cards of all types. Its heavy duty zinc construction with recessed door makes it highly resistant to attacks and it comes with a removable black ABS plastic weather cover for added protection. It is Sold Secure Silver (Key safes) and Secured by Design (Police approved specification). It uses 14 large push buttons as part of its combination mechanism, with up to 16,000 potential combinations incorporating both letters and numbers.
