

DORLINE Fire Rated Door Selector MK2

Description

This wedge shaped door selector is designed to ensure the correct closing sequence on a pair of rebated double doors by holding the first opening leaf open until the second leaf has closed. It is suitable for use on fire doors, and has a surface mounted rebate to prevent damage to the frame structure of fire doors. Available in a variety of finishes, CE marked and tested to BS EN 1158, this product is both stylish and practical, making it ideal for use both at home and in the workplace.

Fire Tested
