

GORILLA PVA Wood Glue

Description

Gorilla dominates the adhesives market with their incredibly strong and 100% waterproof glues. This tough wood-to-wood glue is designed with maximum user convenience in mind, with a much shorter required grip time (20 minutes) than other wood glues on the market, and a unique anti-clog cap to prevent blockages and ensure ease of use. This is a versatile choice of wood glue, with D3 water resistance making it suitable for both indoor and outdoor applications and a natural drying finish without any dyes, helping to avoid the discoloration that can occur with other brands of wood glue. It is available in a variety of sizes to suit any job, and all glues are marked with the Gorilla logo which is easily recognisable as a mark of quality.

Weather Resistant
