

GORILLA Epoxy

Description

Gorilla dominates the adhesives market with their incredibly strong and 100% waterproof glues. This 25ml two part Epoxy features separate barrels for the resin and hardener to prevent early hardening of the epoxy and the syringe dispenses evenly, supplied with a cap so the syringe can be used multiple times. The glue dries crystal clear so you can even adhere two pieces of glass together with no staining, and it has a 5 minute set time allowing more time to reposition in order to achieve the perfect fit. It is suitable for use on a wide variety of materials including wood, metal, brick, glass, rubber and ceramics and it fills gaps to ensure a secure bond even when bonding two different surfaces together. Since it is so strong, just a small amount of the Gorilla Epoxy goes a long way, with an average coverage of 100 square inches from the 25ml syringe.

Features

- Permanent and durable bond
- Temperature resistant
- Resistant to moderate water exposure
- Easy to use syringe with even dispensing
- 5 minutes set time, allowing more time for repositioning to achieve the perfect fit
- Dries crystal clear
