ACT ACTpro 1520 Single Door IP Controller with PSU

Description

The ACTpro 1520 is a single door IP controller expandable up to 32-doors via ACTpro door stations and supports 15,000 users . It can be set-up and administered via its built-in web server or through the established ACTWin software application. Key features include voltage monitoring, break glass monitoring, status LEDs for fault indication and cable management improvements such as a raised PCB and more space in the enclosure. The ACTpro 1520 comes complete with a power supply (PSU) unit.
