

ASEC Multi-Purpose Cable Lockout Hasp

Description

This Multi-Purpose Cable Lockout Hasp from Asec has a 2.5 metre nylon coated steel cable and space for holding up to 6 padlocks. It is extremely versatile because once the steel cable is wrapped around the item (e.g. used to lock a gate in the open position) then up to 6 padlocks can be fixed in place, only when all 6 padlocks are removed can the cable be removed.

Our range of ASEC Lockout Tagout equipment meets all practices & procedures to safeguard employees from the unexpected energization or startup of machinery and equipment, or the release of hazardous energy during service or maintenance activities.

Features

- Ergonomically designed
- Easily visible red & blue finish
- Fits up to 6 padlocks
- 2.5m nylon coated steel cable
