

ASEC Yellow MCB Lockout Type A

Description

The Yellow MCB Circuit Breaker Lockout (Type A) from Asec is made to fit virtually any size of Mini Circuit Breaker regardless of the size or hole position. It is easy to use by turning off the breaker & placing the lockout over the switch. Tightening the internal grub screw onto the switch, locking the unit in place. The thumbscrew features an integral hinge, allowing it to fold down so that a padlock can be fitted onto the hole in the lockout hasp therefore preventing the switch from being operated until the padlock has been removed.

Our range of ASEC Lockout Tagout equipment meets all practices & procedures to safeguard employees from the unexpected energization or startup of machinery and equipment, or the release of hazardous energy during service or maintenance activities.

Features

- 10mm profile
- Prevents incorrect use
- Integral hinge
- Miniature Circuit Breaker
- Easily visible yellow finish

Product Table
