

ASEC Yellow MCB Lockout Type B

Description

The Yellow MCB Lockout Type B from Asec is easy to use by turning off the breaker & placing the lockout over the switch. Turning the thumbscrew will tighten the internal grub screw onto the switch, locking the unit in place. The thumbscrew features an integral hinge, allowing it to fold down so a padlock can be fitted onto the lockout hasp, preventing use.

Our range of ASEC Lockout Tagout equipment meets all practices & procedures to safeguard employees from the unexpected energization or startup of machinery and equipment, or the release of hazardous energy during service or maintenance activities

Features

- 10mm profile
- Prevents incorrect use
- Integral hinge
- Miniature Circuit Breaker
- Easily visible yellow finish
