

CODELOCKS Narrow Stile Digital Lock

Description

This narrow stile mechanical Codelock suitable for aluminium doors is an affordable alternative to electronic keypads, electrical strikes, magnetic locks and other systems used on aluminium framed doors. It is designed to be retrofitted to an Adams Rite or similar ANSI mortice deadlatch and is supplied complete with cams, cylinder and return to door lever handles.

Clean by Codelocks is an optional finish available to special order on many Codelock products. The clear coating combats SARS-CoV-2 coronavirus (COVID-19) and can reduce bacterial growth by 99.96%, providing an additional measure of protection over sanitisation. Clean by Codelocks features an ISO certified* photocatalytic coating which offers enhanced protection against viruses, bacteria, germs and other environmental toxins. For full details please view the data sheet in the associated documents or to order please contact our Specials Department.
