CODELOCKS CL510 / CL515 Digital Lock With Tubular Latch

CL510 - Without Passage Set

Description

The CL510 and CL515 have a heavy duty tubular mortice latch, and the CL515 has the option of a code free entry facility. The outside lever handle will retract the latch after a correct code is entered, the spring loaded latchbolt will lock automatically when the door is closed. To achieve the fire rating these digital locks must be fitted with the appropriate intumescent pack, please see associated products.

Clean by Codelocks is an optional finish available to special order on many Codelock products. The clear coating combats SARS-CoV-2 coronavirus (COVID-19) and can reduce bacterial growth by 99.96%*, providing an additional measure of protection over sanitisation. Clean by Codelocks features an ISO certified photocatalytic coating which offers enhanced protection against viruses, bacteria, germs and other environmental toxins. For full details please view the data sheet in the associated documents or to order please contact our Specials Department.

IMPORTANT:
Before ordering a Codelocks front/back plate set for use on an existing lock case, the current lock case must be tested to ensure it is compatible. Please see the 3rd Party Lock Disclaimer PDF document below for full information.

Combination Mechanism	Fire Tested	Passage Set Facility	Reversible Handing	Weather Resistant
