

# CODELOCKS CL620 Digital Lock With Mortice Lock & Cylinder

## Description

The Codelocks CL620 is from the CL600 series and is a heavy duty tubular mortice lock with double cylinder, 3 keys and anti-panic safety function. The outside lever handle will retract the latch after a correct code is entered, the spring loaded latchbolt will lock automatically when the door is closed. The key retracts the latchbolt for entry without using a code, the key controls the deadbolt position. When the deadbolt is projected it denies access by code, when the deadbolt is projected the safety feature allows the inside lever handle to retract both the deadbolt and the latchbolt, preventing people being accidentally lock in. The key can be used to open the doors for management functions such as security and cleaning.

Clean by Codelocks is an optional finish available to special order on many Codelock products. The clear coating combats SARS-CoV-2 coronavirus (COVID-19) and can reduce bacterial growth by 99.96%\*, providing an additional measure of protection over sanitisation. Clean by Codelocks features an ISO certified photocatalytic coating which offers enhanced protection against viruses, bacteria, germs and other environmental toxins. For full details please view the data sheet in the associated documents or to order please contact our Specials Department.

### IMPORTANT:

**Before ordering a Codelocks front/back plate set for use on an existing lock case, the current lock case must be tested to ensure it is compatible. Please see the 3rd Party Lock Disclaimer PDF document below for full information.**
