

Compliance Made Easy

FIRECO Floorplate Kit To Suit Dorgard

Description

Floor plate kit designed for use with the Fireco Dorgard hold open device. The floorplate helps with the installation of Dorgard with particularly heavy fire doors, or on slippery floor surfaces which might otherwise cause the fire door to slip closed. The kit contains 1 standard plate with 'bump' stop and 1 additional 'anti-hazard' plate.

Features

- Fitting instructions included
- Pack of 2 - 1x bump stop, 1x anti-hazard
- Ideal for use on heavy doors and slippery floor surfaces
- Requires 5mm clearance under fire door to allow for installation
- For use with the Dorgard hold open device
