

ADAMS RITE 1391-1042 Solenoid Bolt

Description

The ADAMS RITE 1391-1042 Solenoid Bolt is used to facilitate the remote access and exit control of steel, timber and aluminium doors and is suitable for both single and double action doors. It can be mounted vertically or horizontally and features a stainless steel deadbolt with a 16mm throw and a holding force in excess of 1000kg. The slimline design allows the lock to be concealed and fitted into the door frame.

Features

- Spring operated bolt
- Bolt throw 16mm
- Vertical or horizontal mounting
- Brushed stainless steel finish
- Continuously rated
