UNION ExiSAFE Push Pad Bolt To Suit Single Doors

Description

This Push Pad Bolt from Union's ExiSAFE range is designed for use on single doors and it is available in versions to suit either metal or timber door applications. Automatic top trip and easy clean floor socket is standard, while the main body is fitted with an anti-thrust device, preventing leverage of both the top and bottom shoot bolts from their sockets. The unit features reversible handing and the whole range has been cycle tested to 200,000 operations and it is fire tested to 120 minutes resistance on timber doors and 240 minutes for metal doors, with timber or metal fixing variants available. Manufactured in the UK, this reversible unit is CE marked, Certifire approved and corrosion resistant.
