

ALPEN Multicut Hardplate Kit

Description

This Multicut Hardplate Drill Bit Kit from Alpen contains one drill bit of each of the following sizes: 4mm, 5mm, 6mm, 8mm & 10mm. They have a heavy duty tungsten carbide construction and are ideal for rotary drilling in roof tiles, concrete tiles, slate, ceramics, tiles, metal marble and granite. With a standardised shank profile, they are suitable for use with all standard drills. The kit is supplied in a plastic storage case.
