

ADAMS RITE 2600 Sentinel Mortice Deadlock Case

Description

The ADAMS RITE 2600 Sentinel Mortice Deadlock Case is manufactured from steel, with a corrosion-resistant plating, and is suitable for use with steel or aluminium doors. This deadlock case has been specifically engineered to comply with BS EN 12209 Grade 6 and the bolt can withstand 10kN side load in unsupported application and 6kN end load. It is locked and unlocked by 360° turn of key/thumbturn, with the key only removable when the bolt is positively locked or unlocked, preventing the risk of leaving the door accidentally unlocked.

Operated By Euro Cylinder

Features

- Complies with BS EN 12209 Grade 6
- Suitable for use with steel or aluminium doors
- Corrosion-resistant plating
- Steel construction

Product Table

The image shows a vertical metal bracket with a horizontal flange at the top. It has two small rectangular tabs on the left side and two on the right side. The main body is a flat metal plate with a circular hole near the bottom.
