

ERA Lockdown Door Barricade for Single Doors

Description

This emergency barricade from Era is designed for use on inward and outward swinging internal single doors from 650mm to 1100mm width. It has a hard wearing steel construction with a powder coated black finish and it provides quick and easy protection to a room and its occupants from outside forced entry. The device is supplied with fixings for wall mounting, making it extra quick and easy to access and deploy. It has been tested to PAS24 impact resistance standards and it comes with a 1 year manufacturer's guarantee.
