

Description

The Blenheim Offset Lever Pad style handles from Fab and Fix are a sturdy and hardwearing choice of handle which are suitable for external doors due to their heavy duty construction and corrosion resistance. Supplied as a pair, they are designed to operate a Multi Point Lock with a Euro Cylinder and they are supplied with colour coordinated screws and an 8mm x 120mm spindle.

Providing maximum versatility, Blenheim lever handles are reversible, suitable for PVCu, timber, aluminium and composite doors, and available in a variety of stylish finishes. For reliability, the handles are endurance tested to excess of 200,000 cycles and also meet the requirements of BS EN 1670:2007 Grade 5 (480 hours) for corrosion resistance to ensure the best finish on your door hardware.

10 Year Guarantee
