

MACO C-TS Slave Lock

Description

This non handed Slave door lock from Maco includes a C-TS centre section which allows for lever handle operation on the slave leaf of double doors. This unit has a total length of 1500mm to fit French doors, and shootbolts can be fitted to the top and bottom to secure the slave sash in place. With a Tricoat coating, the slave lock has undergone 1000 hours salt spray testing to achieve the corrosion resistance standards of BS EN 1670, as well as confirming to PAS24 and being approved by the Police security initiative Secured by Design.
