

ASEC 68mm Lever Pad UPVC Door Furniture With Snib

Description

The Asec range of 68mm UPVC door furniture is a stylish and high quality choice of lever which is optionally sprung or unprung. It is available in a variety of finishes with a robust hot forged construction and it features electro coating for corrosion resistance. This version is a lever / pad design, supplied with a snib function which consists of a rocker snib located at the side of the handle.
