

WHEELIE BIN DIRECT Slam Lock

Description

Restrict access to your wheel bin with the Slam Lock from Wheelie Bin Direct. Fitted to the inside of the bin, the slam lock will activate on the close of the lid, as the strike plate comes into contact with the lock. This unit comes supplied with a WBD key to operate the lock.

Features

- Popular security device for large commercial wheelie bins
- Slam lock should be bolted to the inside of the bin
- Strike plate is designed to be fitted to bin lid
- Supplied in three parts; key, strike plate, strike plate stopper and slam lock
