UNION Sashlock Fire Door Kit

Description

The Union range of Fire Door Kits are a reliable, convenient and attractive solution for installing and protecting timber & metal fire doors. Supplied with some of the highest quality fire rated parts available, they are CE marked and Certifire approved for reliable fire door security. These Fire Door Sets are available in four different types to suit different doorset requirements. Using a fire door kit is highly convenient as it contains all the necessary components, fixings and instructions in one place, saving the user time and money. This Sash Lock Pack is ideal for locking doors such as classrooms and offices.
