

Steel Window Fittings

STEEL WINDOW FITTINGS B375 Peg Stay Pin Bracket for Side Hung Windows

Description

The B375 Peg Stay Pin Bracket is for use with Side Hung Windows where compression is not required to hold the window shut in the closed position. It features M5 countersunk screw holes for a secure and flush fitting finish. This versatile pin can be used in 3 ways: on its own, with a rest (B375RST) or with a Through Hole Pin Bracket (B375THPB).

Features

- Can be used 3 different ways (alone, with a Rest or with a Through Hole Pin Bracket)
- M5 countersunk screw holes
- For use on side hung windows
