

ERA Saracen Dura Deadlock Gearbox 11.5mm Latch

Description

This ERA Saracen Dura Deadlock Gearbox with 11.5mm latch is available for either right or left handed applications and is designed for use with Duraflex profiles. It is corrosion resistant to BS EN 1670 and suitable for use with Era Saracen FM shootbolts (supplied separately). On a Top Hung Window the arrow, on the top of the latch, points the same way the handle is pointing when the window is closed e.g. if the arrow points to the Left (viewed from the INSIDE of the house) this is for use with a Left hand pointing handle. On a Side Hung Window – the arrow should always point downwards – again we view this from the inside of the house and it is based on the latch being in the extended position – i.e. when the window is closed.

10 Year Guarantee

Complies To BS EN 1670
