

Description

This GATEMASTER Screw Fixed Hydraulic Gate Closer ensures safe and reliable self closing. It comes with a fully adjustable speed, with no power required and is compatible with gates up to 120kg. A stop hinge prevents the gate opening further than 100 degrees. The kit includes a robust closer unit which also acts as a load-bearing lower hinge, and a fully adjustable top bracket, enabling the correct positioning of the gate after installation.

Reversible Handing

Weather Resistant

Features

- No power required
- Stop hinge for maximum opening of 100 degrees
- Adjustable speed
- Meets ROSPA recommendations
- Easy to install
- Suitable for gates up to 120kg
