

Description

This GATEMASTER Superhinge comes in 4 sizes, the largest of which is suitable for gates up to 900kg (weight guidance on the hinges assumes a relationship between the width and height of the gate of 1 to 1.6). It has been tested to 500,000 openings with no wear - this is an average of 50 years based on 25 openings per day. The Superhinge requires little to no maintenance - simply grease the hinges every 6 months.

Reversible Handing

Weather Resistant

Features

- Low friction - ideal for use with automatic gates
- Little to no maintenance - simply grease every 6 months
- Tested to 500,000 openings with no wear
- Suitable for all gates up to 900kg
