

Description

This GATEMASTER Screw Fixed Gate Closing Strut is suitable for gates up to 80kg, making it ideal for a range of applications, from commercial gates to wooden or wrought iron gates. With included screw fixed brackets, it is perfect for retrofit applications. To adjust the closing force, simply move the strut along the slots in the brackets and it is also easy to fit with adjustable brackets, meaning there is no need to compress the strut when fitting to a gate.

Reversible Handing
