

Description

The TR35 Vehicle Tracker from Bulldog is ideal for monitoring the progress and location of vehicles, trailers and assets. The TR35 is magnetically installed and has an IP rating of IP66 which guarantees it to be shockproof and durable. The tracker allows you to monitor progress via the app and receive push notifications directly to your phone. Speed, live location and signal strength can be viewed at a glance, and the app will also generate reports for review.
