

Description

The Paxton Net2 Entry door entry system is functional as a standalone or alongside Paxton's Net2 access control, combining door entry with key features of Net2. With a discreet design the Net2 Entry is a plug and play solution suitable for a range of environments. The touch panel system has a 7" display, is IPX5 waterproof rated, made from a marine-grade stainless steel, and has an anti-glare coating with auto brightness.

IP55

IP55 Ingress Protection Rating
