

MASTER LOCK Excell Discus Combination Padlock

Description

This MASTER LOCK Excell Discus Combination Padlock has a stainless steel body for maximum strength and weather resistance. It features a boron-carbide shackle which is 50% harder than hardened steel, and a fully shrouded shackle ensuring minimum exposure, providing protection against bolt cutting attacks. The lock has a 4 digit combination, with over 10,000 possible combinations, and a reset tool is included for your convenience.
