

ERA

ERA Charisma Inline Cockspur Non Locking Espag Handle

Description

The Charisma Cockspur Handle from Era is a traditional casement handle with a stylish contemporary slimline design. It is available in a range of finishes to suit either right or left handed applications (please ensure you select the correct handing to suit your requirements). The Charisma range has been performance tested in excess of 25,000 cycles and it meets the requirements of BS EN 1670, with 96 hours of corrosion resistance testing. The handles automatically lock upon closure and are released by depressing the button. They are available with a deadlocking function, however this model is a non locking version. It comes complete with a 10 year manufacturer's guarantee.

10 Year Guarantee

Complies To BS EN 1670
