

YALE AutoSecure Lever Operated Latch & Hookbolt Split Spindle - 2 Hook 16mm

Description

This YALE AutoSecure Lever Operated Latch & Hookbolt Split Spindle is a high quality multipoint locking system, designed with security and functionality in mind. With a 16mm faceplate, the innovative mechanism fires all hooks from a single trigger point as the door closes, removing the need to lift the handle, and creating an ease of use for residents. It comes with a hold back snib facility to prevent accidental lock outs, anti-lift protection and controlled firing to prevent damage to both the frame and keeps. It comes complete with a 10 year guarantee and is PAS24 and BS EN 1670 accredited.
