

MASTER LOCK Bluetooth Wall Mount Key Safe For Business Applications

Description

This MASTER LOCK Bluetooth Wall Mount Lock Box is designed for use with many users, making it ideal for business applications. Never worry about forgetting your key or combination again with this convenient, simple and secure keyless access lock box.

The free Master Lock Vault Enterprise app available for both Android and iOS devices is easy to use and allows for sharing access with other users, temporarily or permanently, and quick and easy access to robust data and audit trails.

This lock box comes with an easy to replace CR123A battery with an estimate battery life of 2 years. It notifies the user via the app and on the lock box when the battery is running low, plus it features a backup access option with the numeric keypad. This key box is suitable for storing cash, keys and cards and can be used for both indoor and outdoor applications.
