

Description

The ABUS 142 Series Integral Diskus Van Lock is suitable for sliding doors and features a universal hasp which will fit most common transporters and gates. The solid metal case ensures the padlock is protected, with a cylinder cap to prevent damage from dirt and moisture, plus an extremely corrosion resistant zinc and powder coated finish. The lock is easy to operate with one hand due to the frontal cylinder access, and fixings are included to ensure a quick and easy installation.

Weather Resistant
