

Description

The 12V DC G Range of N Series power supplies from Elmdene has been designed for use in CCTV, access control and general purpose applications that require the use of a standby battery. They use energy efficient switch mode technology and have a universal mains supply input (90—264V AC). Elmdene's FOM4 or FOM8 units can be fitted to give 4 or 8 independent fused outputs if required. The modular range includes several power variants with full rated current to load and also feature a fully regulated output with low ripple and noise.

3 Year Guarantee

Features

- LED status indication
- Regulated and smoothed DC output
- Built in internal fuse protection
- Modular construction allows easy upgrade and servicing
- Energy efficient switch mode technology
