

Description

This LOCINOX Surface Mounted Gate Lock is constructed from stainless steel with an ISO 9227 KTL/E-coated lock box, tested to 1000 hours of salt spray, to ensure optimum weather resistance for outdoor use. It is quick and easy to mount to your gate with 4 hole fixing, and features a reversible daybolt to suit the gate closing direction of both left and right handed applications.

It has 20mm continuous adjustability, without dismantling the lock box, of both the day and night bolt for perfect closing. It is locked by 23mm throw of the deadbolt by turn of the key and comes complete with a 3 year guarantee. Please note that keeps are supplied separately - please see related products.
