

INTERFLON Fin Grease

Description

This INTERFLON Fin Grease multi-purpose aerosol provides thorough cleaning, lubricating and protective action. Both water and steam resistant, it has excellent penetration properties, preventing dirt, dust and water ingress. The grease is both transparent and odourless and comes in a handy aerosol which can be sprayed in any position. The MicPol® technology forms a tough durable film, preventing metal-to-metal contact and sealing out water and any other contaminants to ensure lubrication under even the most demanding conditions.

Weather Resistant
