

YALE Smart Home CCTV HD1080p - 2 Camera 4 Channel

Description

The YALE Smart Home 2 Camera 4 Channel CCTV Kit has full HD1080p quality, plus 30m night vision, ensuring crisp detailed footage around the clock. The intelligent detection feature triggers recording when motion is detected and the iOS and Android compatible Yale Home app also sends push notifications straight to your smartphone. With in-app control and playback, it offers both live viewing or later viewing of recorded footage thanks to the 1TB storage.

The cameras have a 60 degree viewing angle and image masking enables the user to control which areas are covered and which are ignored. Intelligent search highlights events within the timeline, allowing the user to pinpoint specific activity. The cameras are weatherproof and have an 18m cable.

Works With An App

Weather Resistant
