

ABUS 141 & 142 Series Integral Diskus Van Lock Twin Pack

Description

The ABUS Integral Diskus Van Lock Twin Pack includes both the Abus 141 Series and Abus 142 Series locks, suitable for sliding doors. The locks feature a universal hasp which will fit most common transporters and gates. The solid metal case ensures the padlocks are protected, with a cylinder cap to prevent damage from dirt and moisture, plus an extremely corrosion resistant zinc and powder coated finish. The locks are easy to operate with one hand due to the frontal cylinder access, and fixings are included to ensure a quick and easy installation.
